Kim,  
 Do we always do ECN whenever we have a STC? What does ECN say in that case?

Bill,

*ECN 847*

EASA STC EASA.IM.R.S.01204 has been issued for the 412-630 folding steps that are compatible with the 412 float systems.

Please see attached.

This STC should replace the existing LBA approval we have on file.

Our application should have included the AB412/AB412EP models, but I notice they have been left off the certificate.

I will try to rectify this situation, but don't hold your breath. This could take a few months.

I suggest we use this certificate for now.

*Missing 412CF as well.*

Kim/Serge,

Please initiate ECN process.

*Does LBA Approval get removed?*

David
